

Novated leasing

Employer's Guide to Novated Leasing

**Attract and retain top talent by offering
your employees the benefits of a
convenient, easy-to-navigate and
streamlined novated leasing program**

Smart™

Welcome

What is novated leasing?

Novated leasing is another name for salary packaging a car. It's one of the most cost-effective ways to buy and run a car. It could help save your employees thousands.

Car finance and all running costs (fuel, insurance, rego, maintenance, tyres, electricity, even car wash costs) can be included in the package to make one regular bundled repayment each pay day. No GST is paid on the purchase price of the car, instantly saving 10%, and GST can be saved on the running costs too.

Why offer novated leasing to your employees?

Give your people a pay rise at no cost to your business

Incentivise your workforce, retain talented staff and maximise every dollar your employees earn by offering this significant tax-saving benefit at no cost to your business.

A clever alternative to company cars

Giving car-driving employees the options of a novated lease reduces the cost and administration time associated with company-funded leases and owned vehicles.

Effortless integration

Seamless, outsourced management and reporting means no additional administrative burden for organisations and no cost to the organisation.

Minimal risk to your organisation

Should an employee leave, the novated lease reverts to a two-way agreement between the employee and financier, with the employee assuming full responsibility for ongoing payments and upkeep.

Why choose us?

We have become one of Australia's leading novated lease providers to the not-for-profit, government, health, and corporate sectors. Here's why:

✓ One provider, maximum employee benefits

As well as novated leasing, we offer a full suite of salary packaging benefits, including superannuation, laptops and meal entertainment, which you can choose to offer your employees.

✓ Unrivalled customer service

Our award-winning in-house and onsite customer service teams ensure your employees are informed and satisfied with their employee benefits.

✓ Simple fully integrated systems

We tailor our admin to fit yours, from traditional invoicing to fully-integrated systems that simplify processing for your payroll team and salary packaging employees.

✓ Minimise your business risk

Smart is trusted to deliver novated leasing to over 50,000 employees across over 1,800 organisations, so you know your employees are in good hands.

The Smart choice

With a novated lease, employees can improve their financial wellbeing by salary packaging of a new or used car that suits them, their lifestyle and their budget.

7 ways a novated lease benefits your employees

1. Save thousands on purchase price and ongoing maintenance

Smart achieves significant savings through nationwide dealer and vehicle maintenance networks. Smartleasing negotiates thousands in savings on the vehicle purchase price, while fixed-price car servicing from over 6,000 licensed repairers keeps running costs in check.

2. Significant tax saving for the life of the lease

With a novated lease, there's no GST to pay on the purchase price, instantly reducing the cost of the car by 10%. From there, running costs – fuel, servicing, registration, tyres and insurance – are also GST-free and are budgeted for and deducted from pre-tax income, saving employees thousands more over the life of the lease.

3. One easy payment covers everything

All regular expenses – finance, insurance, rego, fuel, tyres, maintenance and roadside assistance – are budgeted for and bundled into one easy payment on pay day. That means no out-of-pocket expenses and no claims to lodge.

4. Flexible lease term to suit their budget

Depending on their budget and other financial goals, employees can choose the length of lease that suits them best, from one to five years.

5. Drive the car they love

Lease a new or used car with complete freedom to select the make, model, colour and special features. Employees can even take out a novated lease on the vehicle they're driving now, in an arrangement called 'sale and lease back'.

6. Car disposal program

We can help your employees sell their current car for a great price through our vehicle disposal program. Our comprehensive Vehicle Disposal Program is a concierge service assisting with everything from inspection to vetting prospective buyers, vehicle collection and much more.

7. Smart Rewards:

When salary packaging through Smart, your employees have access to our Smartrewards program – at no extra cost. Smartrewards provides your staff with discounts available at hundreds of Australia's leading fashion, grocery, dining, entertainment, electronics, and travel retailers.

Saves you dollars and makes sense

See the possible savings over 5 years when leasing a MG HS Excite Wagon at \$34,0271 (RRP).

There are lots of ways to finance a car

Here's how a novated lease stacks up against other forms of car finance when leasing a Mazda CX-5 Maxx Sport Wagon.

Maxx Sport Wagon	Car loan	Cash	Novated Lease	Savings
Total purchase cost of the car (inc. GST) ⁵	\$42,695	\$42,695	\$36,645	Smart optional buying power discount and no GST on car's purchase price
Running costs over 5 years	\$32,790	\$32,790	\$28,542	*GST savings
Smart administration fee over 5 years	N/A	N/A	\$823	
Finance cost over 5 year term (inc. interest and fees)	\$56,861	N/A	\$38,948	
Income tax savings over 5 years (inc. contribution GST payable on your lease)	\$0	\$0	(\$11,656)	
Total cost over life ⁶	\$89,651	\$81,214*	\$73,736	Total possible savings \$15,915 compared to a car loan

The future is electric

Encouraging your teams to explore an Electric Vehicle (EV) novated lease could be Smart for them.... and Smart for your business.

By collaborating together to encourage your employees to explore electric vehicles on a novated lease, we can contribute to a better environment for the future.

And, not only will you be helping your employees maximise the significant tax savings available when leasing an EV, but by supporting EV adoption you will help reduce your company's overall carbon footprint, which could support your corporate sustainability and environmental responsibility goals.

The potential savings of purchasing an Electric Vehicle with a Novated Lease⁷

For a new Tesla Model 3 with a RRP of \$59,792 (including GST and on road costs), the tax savings could be:

SAVINGS
\$31,275

For someone earning \$90,000 on a 5-year lease

The Electric Car Discount

There's never been a better time for your employees to lease an Electric Vehicle – now 100% Fringe Benefits Tax free.

The Electric Car Discount Policy, introduced by the Federal Government has made EVs under the luxury car tax threshold (\$91,387 in 2024-25 Financial Year) considerably cheaper when purchased through a novated lease. This is because these EVs are now exempt from Fringe Benefit Tax (FBT).

The discounts will apply to the following EVs which are either:

- ✓ New EVs purchased after 1 July 2022
- ✓ Second-hand EVs first registered after 1 July 2022
- ✓ Battery EVs

The ins and outs of offering novated leasing

How a novated lease is structured

A novated lease is a three-way agreement between an employer, employee and financier. It allows the lease payment to be deducted from an employee's gross salary and paid on their behalf directly to the lease provider.

As determined by the Australian Taxation Office (ATO), a novated lease arrangement includes the following four components:

1. Payment schedule

This schedule aligns with your company pay cycle, generally fortnightly or monthly.

2. Residual value

This is a percentage of the amount borrowed to purchase the vehicle, payable as a lump sum at the end of the lease term. The formula to calculate the residual is set out by the ATO.

As an employee enters a novated lease, we explain the residual value, and the disposal and refinancing options that will be available at the end of the lease.

3. Term of lease

The length of time over which the lease is taken out. This is determined by the employee and runs from one to five years.

4. Novation agreement

This standard legal document lays out the conditions of the lease as agreed by the employer, employee and financier and is signed by each party.

Employee:
Salary packages the cost of the car

Employer:
Pays the cost of the car via Smart from the employees salary

Vehicle Financier:
Provides the car

Who's responsible for what?

Obligations of the employer

In a novated lease arrangement, the primary obligation of the employer is to deduct lease payments from an employee's pre-tax salary and pay it to Smart. If an employee terminates their employment or goes on extended leave, the employer must notify Smart and the responsibility for lease payments falls to the employee to make direct with the financier.

Obligations of the employee

1. Making the lease payments

In a circumstance where the employee does not earn a wage, such as while on extended leave or after termination of their employment, their employer is not obligated to make the usual pre-tax salary packaging payment for the novated lease. The employee is required to make their own arrangements for the finance repayments post-tax. Smart can assist employees who are unable to continue salary packaging a car with our post-tax vehicle solution 'MyCarPlan'.

2. Paying the residual value

This lump sum is calculated on the amount borrowed to purchase the car and is payable by the employee at the end of the lease period. This requirement – along with the amount due – is clearly laid out for the employee as they enter the lease. Smart offers a number of end-of-lease options for employees to reduce the financial burden of this payment; For example, an employee can refinance the lease, which allows them to continue enjoying the tax savings for a further lease term.

Committed to ensuring employees understand their obligations

You can feel confident that our guidance-based approach ensures your employees are aware of their obligations under a novated lease arrangement. Your organisation is also protected from financial liability by the terms and obligations built into the novated lease.

What is in cap & Employee Contribution Method (ECM) method of Novated lease?

The in cap method is using the salary packaging cap to cover the FBT value of the novated lease and in some cases the employee will have a remaining cap to use on other general expenses.

The ECM method is where the vehicle finance payments and running costs are paid from a combination of your pre and post tax salary resulting in income tax savings, plus you'll receive GST savings on both the cars value and its running costs. The post tax contribution offsets any FBT.

FAQs

What will offering novated leasing to our employees cost our business?

There is no cost to your organisation to offer novated leasing to your employees.

How much extra work will it place on our staff?

From implementation to ongoing management, we have the people and processes to seamlessly manage your program and reduce the workload for your teams while ensuring employees enjoy their tax savings. The work load for an employer includes approval of the lease, the signing of the Deed of Novation and setting up the payments in your payroll system. All data is provided to payroll within the existing pay files.

An employee is taking extended unpaid personal leave, how do they manage their lease payments during this period?

If an employee is unable to salary package their car due to extended leave, our MyCarPlan program allows the employee to retain the benefits that made their novated lease so convenient. The key difference is that deductions come from post-tax income. While there are no income tax savings, MyCarPlan saves them the time and hassle of keeping a car on the road. Through MyCarPlan, employees can:

- fill up cash-free with BP and Shell fuel cards at thousands of locations across Australia
- save up to 30% on regular servicing, tyres and windscreen repair and replacement, with our Vehicle Maintenance Program
- have Smart pay their registration when it's due
- have Smart make finance repayments on their behalf.

FAQs

An employee has terminated their employment. How is their leasing arrangement managed going forward?

On termination, the obligation for finance repayments automatically reverts to the employee, and the novated lease arrangement with the employer ceases. Once advised of the termination, Smart can provide information to the employee on the options available to either retain or sell the vehicle.

Does Smart provide Fringe Benefits Tax (FBT) management to ensure employees do not incur FBT liabilities?

Yes. Our unique knowledge of the not-for-profit sector is applied to each circumstance. Smart determines the best method for packaging a novated lease to ensure deductions offset FBT payable.

How do I claim GST Input Tax Credits (ITC)?

ITC should be claimed on your Business Activity Statement (BAS). Smart will issue your ITC report monthly for all novated leases.

What is the GST Input Tax Credit Report (ITC report) issued by Smart?

This report is prepared for inclusion on an employer's BAS/IAS Return. This report includes all payments for novated leases in which the GST amount paid is "claimable". Although the Company has not actually paid the GST, the fact that the expenditure is made under a salary package arrangement on behalf of employees makes this a valid Input Tax Credit.

What is the procedure for claiming GST?

- a. Company extracts normal ITC value from own accounting system (supported by held Tax Invoices)
- b. Smart provides GST ITC Report monthly for all novated leases.

Note: The amount paid to Smart for the novated lease should be reported at G11 (Non-capital purchases) and the GST amount from the ITC report provided by Smart should be reported at 1 B (GST on purchases).

Company includes, from the Smart report, the total GST ITC.

1. GST is not payable on the purchase price of a vehicle financed through a novated lease (GST savings are calculated on the FBT base value of the vehicle, up to the claimable limit [\$6,334 in FY 2024-25] unless exempt).

2. Vehicle prices stated includes all on-road costs and government charges. Accurate as of July 2024.

3. Negotiated Smart discount on chosen vehicle will vary depending on factors such as availability, date and location of purchase.

4. GST saving calculated on the vehicle price of \$28,143 (FBT base value).

5. Based on the following assumptions: (1) living in NSW 2000. (2) salary: \$90,000 gross p.a. (3) travelling 15,000 kms p.a. (4) lease term: 60 months. (5) salary sacrifice using Net GST processing method and Employee Contribution Method for FBT purposes. All figures quoted include budgets for finance, fuel, servicing, tyres, maintenance, Vero by Suncorp comprehensive motor insurance and re-registration over the period of the lease. Your actual savings will depend on your income tax bracket, the GST processing method nominated by your employer, administration fees payable under your employer's salary packaging plan, the negotiated Smart discount on your chosen vehicle and your personal circumstances. Vehicle residual, as set by Australian Taxation Office, payable at the end of lease term. The exact residual amount will be specified in your vehicle quote. Figures are accurate as of July 2024 but may be subject to change based on availability.

6. Total cost over life, where life represents 5 years. All calculations based on the following assumptions: (1) living in NSW 2000. (2) salary: \$90,000 gross p.a. (3) travelling 15,000 kms p.a. (4) lease term: 60 months. Figures quoted include budgets for finance, fuel, servicing, tyres, maintenance, Vero by Suncorp comprehensive motor insurance and re-registration. Novated lease calculations: using Net GST processing method and Employee Contribution Method for FBT purposes; the total cost over life reflects the net effect after tax and includes an average Smart admin fee; the Smart buying power discount varies by vehicle and is subject to change; residual value is \$12,077 including GST at the end of the lease term (the vehicle can be sold or re-leased to payout the residual at end of the lease term). Interest rate quoted for novated lease is 12.09% p.a. vs 10.38% p.a. for car loan. Vehicle pricing and finance rates are correct as of July 2024 and may be subject to change.

7. Fringe Benefits Tax (FBT) exemption available for eligible electric or hydrogen cell vehicles purchased through a novated lease up to the Luxury Car Tax limit (\$91,387 in FY 2024-25). Plug-in Hybrid Electric Vehicles with leases commencing from 1 April 2025 are not eligible for this exemption.

8. Savings example is indicative only and is based on the following assumptions: (1) living in NSW 2000. (2) salary \$90,000 ex-super p.a. (3) travelling 15,000 km p.a. (4) lease term: 60 months. (5) vehicle purchased in NSW 2000. (6) recommended retail price as advertised by the car manufacturer on their Australian website. All figures quoted include all on-road costs. (7) salary sacrifice using Employee Contribution Method (ECM) for Mazda 3 Astina and EV FBT exemption for the Tesla Model 3. Also includes Vero by Suncorp comprehensive motor insurance. The Smart buying power discount varies by vehicle and is subject to change. Residual value is \$16,906 for the Tesla Model 3 and \$12,704 for Mazda 3 Astina including GST at the end of the lease term. The vehicle can be sold or re-financed to payout the residual at the end of the lease term. Your actual savings will depend on your income tax bracket, the GST processing method nominated by your employer, administration fees payable under your employer's salary packaging plan, the negotiated Smart discount on your chosen vehicle and your personal circumstances. Smart or any related bodies corporate cannot accept responsibility for any errors or omissions from the information or any reliance placed upon it. Car shown only for illustration purposes. Figures and vehicle price are accurate as of July 2024.

9. To be able to salary package a used or current car, it must be under 15 years old at the end of the lease with a minimum value of \$5,000.

This is general information only. Before entering into any salary packaging or novated leasing arrangement, you should consider your objectives, financial situation and needs, and obtain appropriate legal, financial, or other professional advice based upon your own particular circumstances.
